

Need A Miracle

Let me introduce you to JUDE OF CLEOPHAS
(Saint Jude)

During 65 AD and before his death that is what he was called, a first cousin of Jesus of Nazareth (Jesus Christ) who gave him the power to heal and perform miracles. The book *Joe and Jude* is filled with his miracles and divine intervention.

The relic

The relic is something that has actually touched the body of Jude of Cleophas and its mysterious powers have been believed in since Medieval Christianity

The Dominican Shrine of Saint Jude Thaddeus

In Chicago, Has entrusted to them the largest relic of Saint Jude in America, the actual fore arm encased in a silver molded reliquary shaped like an arm. The shrine brings this relic to all parts of the country and wherever it goes miracles are related to its presence. I as the owner of the Jude Thaddeus Glen Cove Marina witnessed one of these miracles. On a cold morning in March a customer requested his boat not go in the water for the upcoming season as it was discovered he had three tumors on one of his lungs, I accepted his request and he went on his way, that July the Relic was brought to the marina, I noticed the customer with the tumors holding the Relic and saying a few words before it. I went about my business. Later that year during October the same customer came to me and asked if he could get his boat in the water as he wanted to fish for black fish, I couldn't help but ask about his condition, he told me two of the tumors had disappeared and the third was the size of a dime, I immediately flashed back to July when a watched him holding the relic.
