4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To continue to provide educational opportunities to the community and public employees through printed information, such as the Stormwater Brochure and annual reports available on the village's web site. Going forward, the MCM 1 goal for 2015 will be to meet with the Town of Hempstead MS4 personnel and begin to partner on improving the Village's Public Education and Outreach.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Public participation indicated through questions at Village Board meetings, e-mails and written correspondence remains minimal; however, the annual report, as well as the Stormwater Brochure were posted on the village website to maintain information availability for the residences and the village employees. As expected the village residents remain focused on Hurricane Sandy recovery.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?☐ Yes ☒ No**E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?**☐ Yes ☒ No**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

Given the impact of Hurricane Sandy efforts at meeting this goal need to be considered in light of the budget needed to respond to the significant damaged suffered as a result of the storm surge. Budget impact and Federal and State support in other restoration areas will be critical in assisting the Village in maintaining the efforts required for this goal. This goal will be continued to be reviewed as the hurricane recovery process progresses.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

Due to the ongoing efforts of Hurricane Sandy relief and recovery the measurable goal of providing written and web site MS4 information to the public has been sustained but no new programs were begun this period. Going forward, the MCM 2 goal for 2015 will be to meet with the Town of Hempstead MS4 personnel and begin to partner on improving the Village's Public Involvement/Participation

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Hurricane Sandy relief and recovery has been the public focus for the last two years. As discussed in last year's report, the information made available to the public seems to have added to the overall understanding of the function of the MS4 and the need to avoid polluting the storm sewers, proper handling of garbage and chemicals, etc.

C. How many times was this observation measured or evaluated in this reporting period?

				1
--	--	--	--	---

(ex. : samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☐ Yes ☒ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
☐ Yes ☒ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

It has become apparent that the village will have to make an effort to partner with the Town of Hempstead and Nassau County and rely more on their efforts at reaching out and educating the public and developing greater public participation.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village of Island Park Public Works employees are working throughout the Village each work day mindful of any suspicious circumstances that may be an illicit discharge into the street or directly into a waterbody. MS4 training was provided on October 11, 2012 where the need to be aware of the possibility of an illicit discharge was communicated along with specific examples of possible illicit discharges.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During the MS4 Field Inspection conducted on May 5, 2014 it was noted that personnel were aware of Lawn Maintenance and Landscaper Gardeners and the need to ensure that they were not discharging the debris into the storm sewer while utilizing leaf blowers.

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To continue to provide educational opportunities to the community and public employees through printed information, such as the Stormwater Brochure and annual reports available on the village's web site. Going forward, the MCM 1 goal for 2015 will be to meet with the Town of Hempstead MS4 personnel and begin to partner on improving the Village's Public Education and Outreach.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Public participation indicated through questions at Village Board meetings, e-mails and written correspondence remains minimal; however, the annual report, as well as the Stormwater Brochure were posted on the village website to maintain information availability for the residences and the village employees. As expected the village residents remain focused on Hurricane Sandy recovery.

C. How many times was this observation measured or evaluated in this reporting period?

				1

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

☐ Yes ☒ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☐ Yes ☒ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Given the impact of Hurricane Sandy efforts at meeting this goal need to be considered in light of the budget needed to respond to the significant damaged suffered as a result of the storm surge. Budget impact and Federal and State support in other restoration areas will be critical in assisting the Village in maintaining the efforts required for this goal. This goal will be continued to be reviewed as the hurricane recovery process progresses.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

Due to the ongoing efforts of Hurricane Sandy relief and recovery the measurable goal of providing written and web site MS4 information to the public has been sustained but no new programs were begun this period. Going forward, the MCM 2 goal for 2015 will be to meet with the Town of Hempstead MS4 personnel and begin to partner on improving the Village's Public Involvement/Participation

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Hurricane Sandy relief and recovery has been the public focus for the last two years. As discussed in last year's report, the information made available to the public seems to have added to the overall understanding of the function of the MS4 and the need to avoid polluting the storm sewers, proper handling of garbage and chemicals, etc.

C. How many times was this observation measured or evaluated in this reporting period?

				1
--	--	--	--	---

(ex.: sample/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☐ Yes ☒ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

☐ Yes ☒ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

It has become apparent that the village will have to make an effort to partner with the Town of Hempstead and Nassau County and rely more on their efforts at reaching out and educating the public and developing greater public participation.

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
